

Dear Authors and Attendees:

You can visit the following website

<https://app.oatos.com/link?code=QiCID7E>

(Password: DSA2022)

to watch the video presentations of papers accepted by the conference.

During the conference, each session is focused on Q/A only. You will give a 5-minute summary of your paper instead of repeating the entire presentation that is available in your video. After the summary of each paper in a given session is presented, attendees can ask questions related to any paper in that session. Authors of the corresponding paper will answer the questions.

According to the IEEE regulations, **every paper must have at least one author to attend the online meeting during the assigned session**. Any paper with no show of any of its authors may be excluded from the conference proceedings and will not be submitted for Ei-indexing.
